INGREDIENTS AT WORK

AN INGREDIENT PARTNER THAT GETS THE JOB DONE.

We go beyond distribution to deliver tailored solutions that meet your unique needs. Our comprehensive services ensure seamless sourcing, expert support, and reliable delivery, empowering your success at every step.

Formulation & Technical Support

We provide expert guidance to help develop formulations or reformulations that meet specific project needs.

Custom Manufacturing

We tailor ingredients and blends to meet specific product requirements, ensuring optimal performance and consistency.

Regulatory Compliance

We offer documentation, insights, and support to navigate regulatory requirements, ensuring product safety and compliance.

Global Sourcing & Supply Chain Management

We leverage a global network to source ingredients, providing you with access to high-quality materials from around the world.

Warehousing & Just-in-Time Fulfillment

We streamline storage and delivery to provide the ingredients you need, right when you need them.

Chemical Spend Analysis

We optimize your ingredient procurement by analyzing trends, volume, and more to uncover cost-saving opportunities and improve efficiency.

BEHIND-THE-SCENES INGREDIENTS FOR EVERYDAY PRODUCTS

For decades, ChemQuest has supplied quality raw material ingredients to customers for use in a number of industries, including:

With over 70 years of experience, Novaphene is a leading innovator in personal care ingredient manufacturing. Combining deep technical knowledge with a forward-thinking approach, Novaphene offers a comprehensive portfolio that includes both proven traditional chemistry and next-generation solutions. The range includes high-performance preservatives, emollients, and active ingredients, all designed to meet the demands of modern formulation and align with key trends in clean beauty, sensory enhancement, and sustainable innovation.

Novaguard is a versatile range of paraben-free preservatives and multifunctional ingredients designed for broad-spectrum protection across a wide range of personal care applications. Combining cost-effective performance with formulation flexibility, Novaguard includes single-function ingredients and optimized blends that meet today's safety and efficacy standards.

Novasolve offers a comprehensive line of high-performance emollients designed to elevate texture, spreadability, and skin feel across a range of personal care applications. The portfolio includes innovative alternatives to silicones and mineral oils, with naturally derived options that support clean beauty positioning without compromising performance.

Novakare is a specialized range of active ingredients designed to meet the evolving demands of skin and hair care formulations. The portfolio includes brightening agents, scalp care ingredients, and safer alternatives to conventional actives, offering versatile solutions for creams, lotions, shampoos, and targeted treatments.

Working together to shape a future of opportunity and prosperity for all stakeholders.

WHO WE WORK WITH

Independent Brands

Whether you're a startup or an established name, our approach ensures independent brands have the right ingredients to create standout products in competitive market.

Contract Manufacturers

We work with contract manufacturers to deliver cost-focused, high-quality ingredients that ensure flexibility in production.

Ingredient Distributors

We work with ingredient distributors to expand their portfolios with in-demand ingredients. Our goal is to simplify sourcing so you can focus on building stronger relationships with customers.

Multi-National Brands

We partner with multi-national brands to ensure consistent supply and access to high-quality ingredients. We help you meet the demands of diverse markets with reliability and expertise.
